---

## PROJECT:

### Assessment Tool Kit

- Developed a web-based tool to evaluate programming skills in Python, Java, and JavaScript across Basic, Intermediate, and Advanced levels.
- Implemented automated test modules with real-time feedback and performance analytics.
- Designed the system to ensure inclusive assessment, adapting to learners' varying skill levels.

### Fitness Tracker

- Built a responsive web app to track fitness activities, calculate BMI, and monitor progress.
- Implemented user authentication, data storage, and personalized dietary plans based on BMI analysis.
- Designed an interactive dashboard UI with activity logs, charts, and fitness journey insights.

### Butter Mellow – Bakery Website

- Definition: Full bakery site with add-to-cart, product scroll, and testimonial sections.
- Technologies: HTML, CSS, JavaScript

---

## INTERNSHIP:

### United IT and CAD, Salem :(July 2024)

- Improved Python proficiency by working with libraries such as Pandas, NumPy, and Matplotlib for data manipulation and visualization. Applied Python to real-world scenarios including data cleaning, processing, and automation. Gained a solid understanding of core programming concepts and industry best practices.

---

## CERTIFICATION:

### NPTEL Swayam

- Completed a Introduction to Internet of Things program and Introduction to 4.0 and Industrial IoT program.

### EduSkills TECH CAMP on Zscaler Zero Trust Cloud Security - K.S.R College of Engineering

- Trained in Zero Trust Cloud Security, including network security, access control, and cloud solutions.

### SEO Certified – HubSpot Academy

- Certified in search engine optimization techniques including keyword research, on-page SEO, and website optimization best practices. Android Developer Virtual Internship
